Hello all, I hope you all had a wonderful break and are rested ready to go for another busy ten weeks!

Firstly I would like to congratulate Yasmin, Charlotte and Will for competing in Adelaide for SAPSASA. Overall, the experience was absolutely fantastic, all three students

thoroughly enjoyed themselves. Well done Will, Charlotte and Yasmin.

School External Review

This week (Thursday and Friday) our school will be involved in an external review. Kathryn Entwistle, the external review officer and Cam Wright, the peer Principal will be in our school and classrooms for these two days. They will be meeting with myself, teachers, staff, students, Governing

Council and parents about the school and student learning at UPS. A reminder that the parent and Governing Council session is scheduled for **9:00am on Friday (July 28th)**.

Learning Goals

The students have been busy at the end of last term and the beginning of this term **setting their own personal learning goals and reflecting on their learning from last semester**. We saw some very pleasing improvements across the whole school with the number of students achieving great results for their effort grades on report cards. Today the students reflected on this and here is what they had to say:

We have improved so much because:

- **We are more persistent**
- **We like the smaller group work**
- **We set goals for ourselves**
- **We didn't mind if we got it wrong the first time**
- **We took more risks**
- **We had a positive mindset**
- **Our learning is fun**
- **We get to do interesting tasks**
- **We got to work in groups**

Please be sure to ask your child/children what their learning goals are for this term or come in and have a look.

TERM 3 DIARY DATES

Effort Board for Term 2

Well done to all students who have been putting in 100% effort in all learning areas. Our effort board is filling up fast!

Fundraising for the Kitchen and Garden

Well done to Lisa, Avril, Will, Bianca, Katie and Mitchell for raising **\$384.25** from selling our school produce and another **\$112** for the garden raffle. Money from the fundraiser will be put towards our outdoor kitchen and the money from the raffle will be put towards our fruit tree enclosure. I am looking forward to seeing everyone at the **Curry Night that Sue is organising on the 11th of August**.

Thanks

A huge thanks to Sue Liddicoat for organising a clean out of the garden shed today. Thank you also to Andrew, Ben, Ruby, Jason, Anthony, Jon and Marion for helping out. Your help is greatly appreciated.

A Message from Trish

Fantastic news! He's hit the \$2000 mark! Thanks so much to Ashleigh Ferguson the principal at his little school. It may be a little school but they sure have a big heart! Thanks to all the staff and the parents and friends committee for all their great fundraising!

Hope to see you all on Friday. Have a good week.
Ashleigh

- ◆ Be honest

Reading Comprehension—Making Inferences

An inference is when you have to figure things out on your own when reading. The author doesn't always tell you everything. Questions about drawing conclusions and making an inference often contain the key words...*you can tell or probably.*

An inference is when you decide what you think is happening when the author doesn't tell you what is happening. You have to support your answer with facts and clues.
Winston Telfer

When the author doesn't explain every detail you have to figure it out on your own accord using clues and it has to be plausible. Nicholas Sinclair

Library Dress Up Day

On **Monday 7th August** we will be celebrating all of the wonderful learning that has been taking place over the past 10 weeks in library lessons, by holding a **dress up day**. Students have been exploring famous authors such as Eric Carle and Mem Fox. The children are encouraged to **come dressed as a character from the book of their favourite author**.

We will also be holding another book sale on this day, so please remember to bring along some money if you wish to purchase any books.

Our WORM FARM

Over the past two terms Miss Ferguson's STEM group has been designing and building a worm farm. We used an old fridge that we had at school and converted into the farm. Today students got the finish off the project and add **1000 worms** to their new home.

There were so many wonderful learning opportunities that came out of building the worm farm. There were links to design and technology, maths and science.

GARDEN FUNDRAISER

MARIKA TELFER

When I grow up I want to be a restaurant owner because I like cooking and I like to serve people yummy food. I will need to learn how to count money and I'll need to know how to cook well. Reading and writing will help me. I will need lots of space in my restaurant for lots of guests. I will need to know what price things should be so that I can make lots of money.

I AM ASPIRING TO BE.....

BRYN PUGSLEY

When I grow up I would like to be a truck driver. You get to go to other peoples houses and ask if they need help to cart grain and you get money for it. I need to learn which one's the clutch, which one's the brake and which one's reverse. I need to be able to read the test to get my licence and then write the answers.

COREY CALDERWOOD

At the moment I am working at Landmark in Tumby Bay after school on most Mondays and Fridays.

It is giving me good experience for later jobs in my life. I am very interested in farming and agriculture, particularly livestock.

Gardening at school is teaching me how to care for plants and cooking is helpful for learning how to harvest, prepare and cook healthy food. I will need to have good maths skills for calculating how much food, seed and spray you need for your farm.

OUR AMAZING BODIES

This term we will be continuing with our STEM learning and begin our journey through our amazing bodies. This week we traced around our bodies, discussed parts and danced the Hokey Pokey. Next week we will look at “Staying Healthy” where we will discuss our teeth, keeping clean, nutrition and general wellbeing. Eden and Miriam will be our afternoon helpers. The older children will explore the concept “I used to think but now I think” to see how their opinions and ideas change throughout their learning journeys.
